**Based in Bristol, UK.**

## **Introduction**

Mr Jago's previously illustrative work has been advanced over the years to a place of pure abstraction - subtly shifting hues burst and drip in an expressive manner. Synthesising acrylic and spray paint, these piquant creations reflect the artist's love of the natural world: they encompass both the terrain and canopy of the earth's atmosphere, at once reminiscent of leaves on a forest floor and stars in the night sky.
