

**Kristof Santy****B. 1987****Based in Roeselare, Belgium****Introduction**

Kristof Santy is an avid painter who is inspired by folk tales and customs. He presents figurative work based on mythological stories and stylized still lifes, naively approaching observations from his immediate environment. He refers to artists such as Philip Guston, Jean Brusselmans, Domenico Gnoli and Konrad Klapheck, but also immerses himself in popular prints by anonymous artists.
