

Cydne Jasmin Coleby

B.1993

Based in Nassau Bahamas

Introduction

Cydne Jasmin Coleby is the creator of captivating digital and mixed media collages. Flitting between a sparse, monochrome palette and something altogether more vibrant, Coleby's highly self-reflective work examines our emotional capacities. From a very young age, Coleby has felt comfortable disassociating herself from her body, seeing it in its truest form, as it is seen by others. She believes such a perspective ultimately leads to acceptance. Coleby believes that once one completely accepts their physical extension in space, an examination of one's mentality awaits.

Education

2013 Associate of Art, The College of The Bahamas, Nassau
