

Duncan Jago**B.1972****Based in Bristol, UK****Introduction**

Mr Jago's previously illustrative work has been advanced over the years to a place of pure abstraction - subtly shifting hues burst and drip in an expressive manner. Synthesising acrylic and spray paint, these piquant creations reflect the artist's love of the natural world: they encompass both the terrain and canopy of the earth's atmosphere, at once reminiscent of leaves on a forest floor and stars in the night sky.

Education

1998 The University of the West of England, Bristol, UK
