

**Heesoo Kim**

**B.1984**

**Based in Seoul, South Korea**

## Introduction

Based on his careful observations of individuals living mundane lives, Kim explores and conveys various aspects of human existence using bold colours and uninhibited lines. Under the key theme of “Normal Life,” his works continue to raise questions about what constitutes an ordinary life. The images of people with their eyes closed or fixed somewhere else evoke diverse senses, memories, emotions and imagination. As a result, Kim’s works urge us to recognise our own reflections in them, and thus strike a chord with a wider audience. Foregrounded against abstract backgrounds, each character reveals their own condensed narrative.

## Education

2011 BFA, Advertising and Design, KONKUK University, Seoul, South Korea
